Issuer: Swedish Export Credit Corporation - AA+/Aa1

Swedish Export Credit Corporation (SEK) provides access to financial solutions for export and infrastructure. The main businesses include export credits, lending, structured financing, project financing, leasing, capital markets products, and financial advisory services. SEK was founded in 1962 and is owned by the Swedish state.

Index: Rogers International Commodity Index – Agriculture Total Return (RICI-Agriculture Index)

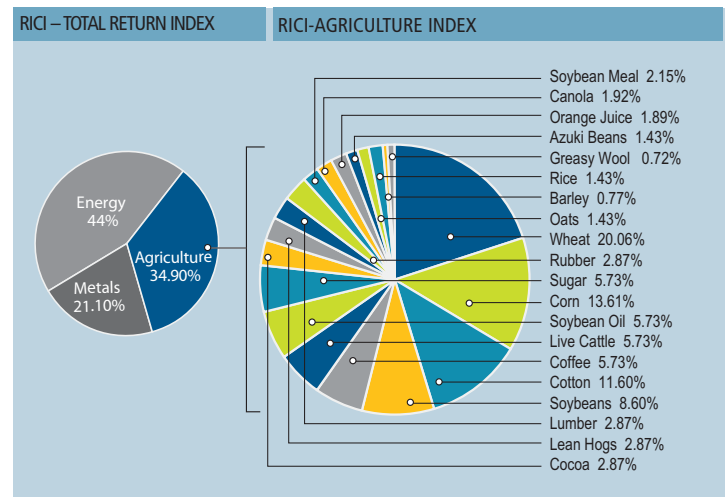

The RICI-Agriculture Index is an index of 20 agriculture commodity futures contracts, representing commodities consumed in the global economy. The RICI-Agriculture Index is a composite, United States dollar-based total return index that reflects the return on a fully collateralized investment in the index components. A sub-index of the Rogers International Commodity Index – Total Return (RICI – Total Return Index), the RICI-Agriculture Index aims to be an effective measure of the price action of raw agriculture materials not just in the United States but around the world. The RICI-Agriculture Index was launched by James B. Rogers, Jr. (Jim Rogers) on July 31, 1998 and is published under the symbol ROGRAGTR on Bloomberg.

RICI-Agriculture Index Weighting and Rebalancing

The RICI-Agriculture Index’s weightings attempt to balance consumption patterns worldwide (in developed and developing countries) and specific contract liquidity. Below is a current list of the futures contracts (Index Components) comprising the RICI-Agriculture Index as well as their respective initial weightings. The initial weightings are the weights of each constituent commodity in the RICI-Agriculture Index set on April 5, 2007.

The RICI – Total Return Index is overseen and managed by a committee (RICI Committee.) Jim Rogers chairs the RICI Committee and controls its decisions. The RICI Committee reviews the selection and weighting of the futures contracts in the RICI – Total Return Index and the RICI Agriculture Index annually. Weights are assigned during each month of December for the following year, if necessary. The RICI-Agriculture Index is rebalanced monthly during each roll period towards its initial weights.

Being a sub-index of the RICI – Total Return Index, the exact weighting of each of the RICI-Agriculture Index Components is the weight of such index component in the RICI – Total Return Index divided by the weight of the Agriculture segment in the RICI – Total Return Index (34.90%).

Historical Performance of the RICI-Agriculture Index

The following chart provides a comparison of performance of the RICI-Agriculture Index and the RICI - Total Return Index for a period beginning September 30, 1998 through September 28, 2007. Both indices are rebased to 100 on September 30, 1998. The historical RICI-Agriculture Index levels do not give an indication of future performance of the RICI-Agriculture Index. There can be no assurance that the future performance of the RICI-Agriculture Index or the Index Components will result in holders of the securities receiving a positive return on their investment.

What Are Some of the Risks of RICI-Agriculture ELEMENTS?

An investment in RICI-Agriculture ELEMENTS involves risks. Some of these risks are summarized here, but you are urged to read the further and more detailed explanation of risks in "Risk Factors" in the Prospectus.

- 1. **No Principal Protection** – If the value of the RICI-Agriculture Index decreases, or does not increase by an amount greater than the aggregate investor fee applicable to your RICI-Agriculture ELEMENTS, you will receive less than your original investment.
- 2. **Commodity Market and Index Risk** – The return on RICI-Agriculture ELEMENTS is linked to the performance of the RICI-Agriculture Index which, in turn, is linked to the prices of the Index Components. Commodity futures prices may change unpredictably, affecting the value of the Index Components and, consequently, the value of your RICI-Agriculture ELEMENTS in unforeseeable ways. The index publisher may suspend or discontinue the calculation or publication of the RICI-Agriculture Index making it difficult to determine the market value of the RICI-Agriculture Index and of your RICI-Agriculture ELEMENTS which, may in turn, adversely affect the market price of your RICI-Agriculture ELEMENTS.

- 3. **Concentrated Investment Risk** – Because the Index Components are concentrated in commodities in general and in agriculture commodities in particular, your investment may carry risks similar to a concentrated securities investment in the agriculture sector.
- 4. **No Interest Payments** – You will not receive any periodic interest payments on RICI-Agriculture ELEMENTS.
- 5. **Issuer Risk** – Since RICI-Agriculture ELEMENTS are unsecured debt securities of SEK, the amount due on RICI - Agriculture ELEMENTS is dependent on SEK’s ability to pay.
- 6. **A Trading Market for RICI-Agriculture ELEMENTS May Not Develop** – Although RICI-Agriculture ELEMENTS are listed on a U.S. securities exchange, a trading market may not develop. The issuer is not required to maintain any listing of RICI-Agriculture ELEMENTS on an exchange.

How do I get started?

Please speak with your broker or financial advisor to determine if RICI-Agriculture ELEMENTS is appropriate as part of an overall investment strategy that fits your goals, risk tolerance, investing style and time horizon.
